Hamed's container research (2023)

DATE	WHO	WHAT WAS SAID
2023-05-15	Hamed	Marked two container locations on survey 1318 ("Container Location")
2023-09-05	Hamed → Curt	"If I have a storage container on site (like a 20ft shipping container), would inventory stored in the storage container be covered by our insurance (ie against theft)?"
2023-09-06	Curt	"It would need a good layer of Security… Unless there's a 3rd party security cameras or a 3rd party central alarm on the container theft would not be covered."
2023-09-06	Hamed → Curt	"If I added a third party monitored door sensor and motion sensor, which is tied into the central alarm system, it's covered?" Curt: "Yes, that is correct."
2023-09-06	Curt	"I would put some barriers that would slow down the removal of the inventory if they breach the lock."
2023-09-22	Underwriter (via Curt)	Concern: rug values and stacking "causing a high fire load"; no sprinkler or fire alarm shown on the Acord.
2023-09-22	Hamed	Rugs are handspun wool (little silk), flame-retardant (IWTO data, below); avg cost $1,900; imported; stacked on the ground; 3rd-party monitored fire alarm; no sprinklers; hydrants along Main St.
2023-10-16	Curt	Alternative quote came back higher; renewal stays with Scottsdale, moved to Coastal Underwriters (broker-of-record letter).

No later email on containers was found: no vendor quotes, listings, delivery terms or city container rules (Gmail searched 19 Oct 2026).

Wool & Fire Facts

Research indicates that wool used in apparel and furnishing textiles can provide a greater level of fire safety than other fibres:

- Wool is difficult to ignite (570-600 °C) compared to Cotton (255 °C) or Polyester (485-560°C)
- Wool does not melt, unlike polyester and nylon, which melt at 252-292°C and 160-260°C respectively
- Wool – even when warm – does not stick to the skin
- Wool has a low heat combustion level, meaning the amount of heat released in burning
- Wool does not produce toxic fumes when exposed to high temperatures

Table: Key measures of flammability for common textile fibres

Fibre	Limiting Oxygen Index (%)	Heat of combustion (Kcal/g)	Ignition temp (°C)	Melting temp (°C)
Wool	25.2	4.9	570-600	Does not melt
Cotton	18.4	3.9	255	Does not melt
Nylon	20.1	7.9	485-575	160-260
Polyester	20.6	5.7	485-560	252-292
Rayon	19.7	3.9	420	Does not melt

Wool fire facts sent to the underwriter, 22 Sep 2023 (source: IWTO, PDF).

Insurance terms (Scottsdale quote QT-03483061, policy 11/3/2023–11/3/2024)

LOCATION	CLASS	CONTENTS (BPP)	THEFT SUB-LIMIT	BUILDING	DEDUCTIBLE
1426 S Main	Antique stores incl. oriental rug stores · joisted masonry · 1957	$1,500,000 RC	$25,000	$600,000	$5,000
1420 S Main	Same class; liability rated "Warehouses – Private", 900 sf	$300,000 RC	$25,000	—	$5,000
1432 S Main	Same class · joisted masonry · 1947	$300,000 ACV	$25,000	$500,000	$5,000

POLICY ITEM	VALUE
Endorsements tied to theft	CFS-24s Theft Sub-limit · CP 12 11 Burglary & Robbery Protective Safeguards
Binding conditions	Alarm certificate for all three locations; updated Acord with alarm and building info

POLICY ITEM	VALUE
Container theft cover	Only with 3rd-party monitored alarm or cameras; monitored door + motion sensors accepted (Curt, 9/2023)
Fire protection on file	3rd-party monitored fire alarm · no sprinklers · protection class 03
Current policy	Terms after Nov 2024 not in email; confirm with Curt

Rules on this lot

CONSTRAINT	VALUE	SOURCE
Creek structural setback (CCCFCD)	30 ft from 2.5:1 line off creek toe; ≈⅓ of building already inside	Staff report 5/28/2020
Creek Preserve Area	50 ft from creek centerline	Staff report 5/28/2020
Building to the rear	"cannot build to the rear of it"	LCA Architects, 1/31/2020
Parking reduction	max 20%; staff unlikely to support (2019)	PRT 2019 · staff report 2020
Access path	Shared with neighbor; recorded revocable license; used by Republic Services trucks	License v09, 2020
Container / shed permit	Not found in email; ask the city	—

Vendor

ITEM	DRY BOX (DRYBOXUSA.COM)
History	Used by Hamid in Utah
Products	New & used containers, 10–53 ft · rent or buy
Modifications	Doors, windows, custom builds
Listed service area	WA, OR, ID, MT, UT, NV, CO, WY, FL. California not listed
